238344

December 6, 1979

J. Filiberto Sanitation, Inc.  
Parker Road  
Chester, New Jersey 07930

Refer to: Farmland Assessment for the Tax Years 1977, 1978 and 1979

Dear Mr. Filiberto:

The townships of Washington and Chester have chosen not to continue the farmland assessment tax credits for Combe Fill Corporation for 1980.

In contemplation of an appeal to the Morris County Board of Taxation, we are required to provide justification for the assessment of prior years; therefore, please provide Combe Fill Corporation with copies of your application for farmland assessment and accompanying gross sales receipts for the periods previously identified.

Very truly yours,

COMBE FILL CORPORATION

Gary A. Molchan  
General Manager

cc: Charles J. McDonald

5. Does this operation conform to State and County Regional Plans for solid waste systems

Yes x No       

6. Have applications been applied for a Certificate of Necessity from Public Utilities Commission

Yes x No       

### ENGINEERING DESIGN

The professional engineering design requirements are as follows:

Eight(8) sets of drawings (maximum sheet size 30" X 42" but preferably 24" X 36") consisting of the following:

1. Key map showing location of proposed work. Municipal or County Map, or equivalent is suggested.
2. Maps showing topographical, geological and hydrological conditions at the site and in the surrounding areas.

ELEVATIONS based on the New Jersey Geodetic Control Survey datum. Use of any other datum must be supported by an explanatory statement and an equation to N.J.G.C.S. datum.

3. A plot plan showing operational areas, final elevations, and the stages and sequence of development of operations.
4. A typical refuse cell cross-sectional drawing.
5. Test boring logs showing soil profile and location of ground water.
6. Detailed drawings of any dikes, berms or other pollution protection devices that may be necessary.

above data and drawings have been prepared by Harry M. Betzig
